At Sleep in Heavenly Peace, we believe that a bed is a basic need for the proper physical, emotional and mental support that a child needs.

The statistics are a bit unnerving when we see how many kids in Winnipeg don't have beds, but we are a registered charity that is addressing this problem. We build and install hundreds of beds each year, for kids that don't have one.

We are all volunteers and we count on our community to come together to build the beds and donate the bedding we need to complete the package!

They are currently looking for:

New Twin Sheet Sets, New Pillows, Cash Donations to cover the cost of lumber and mattresses
